Subject: RE: UB Emissions Data Presentation for ECCC
UB DataMine NatlOGEImtg_081315.pptx

Hi Cindy

Here is the ppt from 8.13.15.

I have been able to move over into my new position starting today!

Cheers

Alexas

Subject: UB Emissions Data Presentation for ECCC

I'm forwarding an invitation to you from Mohamed Abdul who asked me to present our experience with O&G emissions data in the Uinta Basin.

Aaron – This is the presentation I discussed with you on the phone the other day. It'd be great to introduce you to the ECCC folks and allow you to pipe in with your role in uploading the SQL-to-Excel file into R and the subsequent data analysis using R.

Alexas – You were instrumental in the Access database development and data mining of the Tribal Minor Source Registrations. Likewise, it'd be an opportunity for you to “meet” ECCC folks and offer your take on the overall comparative analysis project.

I'll be developing a powerpoint for this and, if I finish it in time, will send to you both for review and comment. If I run out of time for your review, I'll send it before meeting so you can follow along in the meeting (web conferencing is not totally straightforward here) – feel free to correct me on the spot!

Alexas – you and I presented about the data mining before the U&O FIP was even considered. If it is easy for you to find those powerpoints, do you mind sending to me at this email address and my EPA email (I'll likely be working on this new presentation over the long weekend).

Thanks!

Cindy Beeler
